## About the Book

Horrible Harry is back, and this time he's dealing with an ant invasion! When Harry's teacher, Miss Ribble, brings in an ant farm for the class to observe, Harry can't resist poking and prodding at the ants. But when the ants escape and start crawling all over the classroom, it's up to Harry to save the day.

With his trademark humor and mischief, Harry tries everything he can to get rid of the ants, from using a vacuum cleaner to setting traps. But the ants are too clever for him, and they keep coming back. Finally, Harry comes up with a plan that works, and he saves the day once again.
